3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

10	What are your company's expectations in the event of an award?	In the last 4 years of being on the Sourcewell contract, 25% of Tigers' total sales have been generated from the Sourcewell contract. We are excited about having this contract as a key resource to leverage the growth of the Tiger brand and increase sales in North America, and bring the best value to Sourcewell members. Our team at Tiger Corporation looks forward to the continued benefits of using the Sourcewell contract. Many of our customers have stated that using the Sourcewell contract has streamlined their procurement process and has ensured that their governmental entity will receive a quality product for a competitive price. The Sales team at Tiger believes we will continue to grow our sales exponentially by continuing to leverage the Sourcewell contract. We believe the Sourcewell name is synonymous with strength and quality suppliers and provides customers with a contract that is easy to use. 11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Tiger Corporation is a wholly owned subsidiary of Alamo Group Inc., and does not publish individual company financial records. 12	What is your US market share for the solutions that you are proposing?	Tiger and its Authorized Dealer network, commands a 30% market share in the markets we participate in. Unfortunately, AEM does not track market share for industrial mowing equipment. Based on our 53 years of proven performance in the right of way roadside mowing market and the extrapolation of known sales we have on record within our CRM and in our business system, we believe our market share is as accurate as can be determined.
13	What is your Canadian market share for the solutions that you are proposing?	Our estimated market share in Canada is 7%. We are not satisfied with our current level of sales and we believe there is significant opportunity in the prairie provinces of Alberta, Saskatchewan, and Manitoba. We recently added a new dealer in Ontario and they are growing our sales significantly in Ontario and Quebec. Here at Tiger, we see nothing but opportunity and growth in Canada. We look forward to partnering with Sourcewell and Rural Municipalities of Alberta to continue to grow our sales. Due to Covid-19 travel restrictions between the United States and Canada, we were not able to continue our travels and prospecting for new/additional dealers in Canada in 2020. As soon as travel restrictions are lifted, we plan to continue our focused efforts in growing our dealer network in Canada.
14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	Tiger Corporation has never been the subject of any bankruptcy action. There will not be any risk of bankruptcy in the foreseeable future with the financial strength of Alamo Group (corporate). As an Alamo Group company, we have sufficient resources to support our capital investments at our factory or financial operational needs as a company.
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. Tiger's has a total of 14 employees that are directly involved in the day to day activities of selling and supporting our products and provide support to our dealer channel. Tiger's authorized dealers are also agricultural, municipal, and construction equipment dealers, with brick and mortar locations throughout North America. Our diverse dealer network is a strength of Tiger Corporation as it helps us gain additional brand awareness in three distinct markets (Municipal, Agricultural, and Construction customers).
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP. Our factory technicians have over 100 years of combined experience. Tiger Authorized Dealers have factory trained technicians available on demand for our customers.	*
28	Describe in detail the process and procedure of your customer service program, if applicable. We provide service access by phone, email, facetime, our website, and our dedicated Tiger service center website. Our computer software system logs each call so the customers' issue is documented and can be reviewed by another team member at any time. Customers generally initiate service requirements with our Tiger Authorized Dealers, however, our Customer Service Team will answer any customer-generated call. We also leverage our website www.tigermowers.com , which allows customers to download various parts and service manuals.	*
29	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Tiger was awarded a Sourcewell contract 4 years ago and has a proven track record of taking care of the customer from the first phone call to several years after the sale. Table 7: Marketing Plan

Line Item	Question	Response *
34	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Since being awarded this contract in 2017, Tiger Corporation has enthusiastically promoted the Sourcewell contract. We have used the Sourcewell logo on many of our printed literature pieces, along with ads in several county and municipal advertising pieces. Tiger consistently uses Sourcewell in our Constant Contact emails sent out to over 4000 customers and dealer locations. Upon contract award, Tiger's marketing department will again promote the Sourcewell contact name in all our social media platforms, Constant Contact (email advertising campaign), along with another media blitz on Facebook and LinkedIn. Tiger attends local, regional, and national trade shows to continue to grow Sourcewell contract purchasing, and we proudly display the Sourcewell flags at our booth while attending these shows. Tiger currently has the Sourcewell logo posted on our website at the top of our awarded contract page, so new and existing customers have quick access to the website. We will continue to promote the Sourcewell name because of the high brand recognition along with 25% of Tiger's total sales in the past four years have come from this fantastic contract. Tiger Corporation has seen the value in the Sourcewell contract and will continue to reach out to all our customers to promote Sourcewell. Copy of Tiger Boom Mower Literature with Sourcewell Logo, copy of Awarded Contracts page on Tiger website, and copy of Constant Contact piece using Sourcewell have been uploaded to "Marketing" documents area.
35	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Tiger has continually promoted Sourcewell on our website along with many print materials and social media websites to show the ease of purchasing Tiger products using the Sourcewell contract. We have designed Sourcewell specific quote sheets to make ordering easy and fast for the customer. Tiger utilizes Salesforce.com for customer database information and uses Constant Contact, Facebook, and LinkedIn, for Tiger's digital marketing. Bi-weekly email blasts are sent to the customer base to allow Tiger and Sourcewell to stay "top of mind" for our customers. Tiger strives to use Facebook on product deliveries, customer training events and promotes the Sourcewell name when possible.
36	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell has offered Tiger many resources and support in our current contract, which we have utilized to promote cooperative buying. Sourcewell's brand recognition has added great value to Tiger and increased the recognition of our brand name in North America. Our sales team utilizes the Sourcewell name and reputation it carries, in print ads, social media, and the many trade shows we attend. Tiger Corporation will continue to use our sales team and dealer network to provide top-of-the-line products, leveraging Sourcewell as the most cost effective way to purchase Tiger products. The Tiger Sales and Marketing Team will continue to design new marketing materials promoting Sourcewell and introduce the Sourcewell contract at every opportunity.
37	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Currently, e-procurement is not available on Tiger products. Tiger believes our product line requires hands-on personal service for the sale of products at the customer level. With the wide variety of right-of-way mowing equipment and infinite problems with vegetation management we feel we cannot provide the best customer service with e-procurement at this time. Tiger's products are procured through our Tiger Authorized Dealer network. Tiger works directly with our authorized dealers and customers to give the best customer service to provide the solution to the customer's most difficult problems and exceed the customer's expectations.

Table 8: Value-Added Attributes

Line Item	Question	Response *
38	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Every Tiger customer is trained on the operation of the specific machine delivered, safety procedures, and maintenance of the equipment purchased. This training is completed at the time of delivery of their Tiger product. Tiger also provides a unique and value-added service, Tiger Mower Operator Safety Training (TMOST), which is available to all customers in the US and Canada and is led by a Tiger certified, OSHA authorized, and National Association of Safety Professionals (NASP) certified Safety Training/Planning Specialist. (This training does have an additional cost). (TMOST) training includes hands-on operations and covers all aspects of mowers and mowing problems and solutions while keeping the operator and the general public safe. This specific training is done onsite at a dealer location and usually is an all-day course.
39	Describe any technological advances that your proposed products or services offer.	Tiger has been a leader in right-of-way roadside mowing equipment and vegetation management equipment for over 53 years. However, even though Tiger was the first company to invent and engineer the patented hydraulic-powered side mount rotary mower, we have not rested on our laurels. One of our newest technological advances has been the introduction of our Boom Positioning system. Precisely engineered to control the boom arm movement from the operator seat with a simple flip of a switch. This puts the boom arm into the rear stow for a perfect fit every time. Tiger has updated and improved our hydraulic mower system to be entirely independent of the tractors' hydraulic system. We have developed an electronic/hydraulic float system (EFS) for our Wildkat boom mowers, which enables the mower head to follow the contour of the ground while mowing. Tiger is the first company to build a boom mower designed to meet the legal transport height and width restrictions when loaded on a trailer, increasing customer safety in transport. Additionally, the design utilizes a unique break-away boom arm to improve the protection of boom components. With new technology and design leading our company and the industry, Tiger has been a leader in the past and will continue to build the best-built mowing products in the future.
40	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	As an Alamo Group company, Tiger Corporation is a strong believer in Environmentally Sustainable practices and being a good steward of our environment. We have implemented a single-stream recycling program throughout our facility. Approximately 4 years ago, we implemented a reusable packaging program where we take our used cardboard boxes, shred them and reuse these for packing parts for shipment to our dealers and customers. We have updated the lighting throughout our facility to utilize (LED Lights) to lower wattage requirements and reduce our electricity needs. A majority of our design process is done with computer modeling, hence reducing the need for paper. Tiger undertook a massive engineering program to design its products to ensure compatibility of our products with Final Tier 4 & Stage 5 agricultural tractor designs, enabling our customers to use the latest technology and to reduce carbon emissions. We have transitioned from using calcium chloride to "Beet Juice" for liquid ballast, this transition providing our customers with an environmentally friendly fluid to add to their tractor tires for weight and stability. Beet Juice or also known as Rim Guard is Non-toxic, bio-degradable, water-soluble and the heaviest non-corrosive liquid ballast on the market! Please see the attached Sustainability Reports which are uploaded to the "Additional Documents Folder."
41	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Tiger transitioned from using calcium chloride to "Beet Juice" for liquid tire ballast. Beet Juice, also known as Rim Guard is Non-toxic, bio-degradable, water-soluble, and will never corrode tractor rims. Rim Guard SDS Sheets are uploaded to the "Additional Documents Folder." Tiger also uses Mobile Oil EAL 224H on certain model boom mowers. Mobile EAL 224H features and benefits, picture of the label on Mobile EAL 224H Oil Canister, and SDS sheets are uploaded to the "Additional Documents Folder."
42	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Tiger Corporation is a wholly-owned subsidiary of Alamo Group Inc., a public company listed on the NYSE (ALG) There are no special accreditations for Tiger Corporation at this time.
43	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	With 53 years in the right-of-way roadside mowing equipment business, we have significant experience in developing, selling, and supporting industrial-strength roadside mowers. As an Alamo Group company, we have a significant number of engineering and product support resources to draw from, along with our strong financial strength. Tiger has a vast product offering within our product portfolio for the Sourcewell member to choose from and to enable them to have a one-stop shopping experience to satisfy their mowing needs. Another key attribute that Tiger provides to the Sourcewell customer is the breadth of our dealer channel with 57 dealer organizations and 260 locations. Tiger offers a sizeable top-of-the-line sales team trained and experienced in government sales. As a result, Tiger has one of the largest dealer organizations reaching and supporting the governmental market. The Tiger mowing system was designed with versatility in mind. Our customers have the ability to interchange several different mowing heads for the same boom mower. We have flail heads, rotary heads, mulching heads, and a ditcher that can be interchanged on the same unit. Our unique frame design allows our customers to change from a side mower to a boom mower in approximately 4 hours or less, reducing the cost of operation and allowing our customers to utilize that specific asset year-round. Tiger is a solutions-focused organization. We take the time to listen to our customers and discuss their mowing and road maintenance needs before ever recommending a product. Tiger believes in world-class customer support and ensuring that each customer is trained on our products after delivery; our field teams and dealers both provide this service.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
44	Do your warranties cover all products, parts, and labor?	Yes, Tiger has a 1-year standard warranty on all products. This is listed in the Tiger Standard Warranty Policy that is included in the "Warranty " documents area.	*
45	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	There are no restrictions to any governmental entities. Tiger works directly with our customers to explain the warranty and what it covers at the time of purchase. Tiger Corporation also offers our customers the opportunity to purchase an extended warranty for up to 5 years.	*
46	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Tiger will cover transportation costs on a product needed for repair for the first 60 days. Limited coverage for 1 year after purchase. If unique circumstances require assistance, Tiger works with our customers in covering this cost on a case-by-case basis.	*
47	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Every region in North America will be serviced by a Tiger Authorized Dealer. Service, as well as warranty repair, is provided through the nearest Tiger Authorized Dealer.	*
48	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	All warranties will be covered by Tiger Corporation with the exception of tractor warranties. As a business partner with New Holland, John Deere, and Case IH tractors, these OEM manufacturers provide warranty and product support for all tractor related repairs.	*
49	What are your proposed exchange and return programs and policies?	Depending upon the situation the customer will work directly with the Tiger Authorized Dealer for exchanges and return items. Tiger provides a limited number of rebuilt components and Dealers may return parts and whole goods in new and unused condition for full credit.	*
50	Describe any service contract options for the items included in your proposal.	Tiger offers a one (1) year standard warranty on all products. This factory warranty covers any failure that happens under normal conditions. All Tiger products are eligible to receive an extended warranty, ranging from 1 to 5 years depending upon customer preference. Numerous Tiger dealers will offer service/maintenance programs to the end-users depending upon the customer preference.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
51	Describe your payment terms and accepted payment methods?	Tiger policy allows Net 45 day payment terms. Exceptions can be made to this for special circumstances prior to acceptance of order. Bank Checks, ACH Transfers, and Wire Transfer are accepted as payment options.	*
52	Describe any leasing or financing options available for use by educational or governmental entities.	Tiger Corporation has been working directly with (NCL) Nationals Cooperative Leasing for the last 3 years. When a customer inquires about financing or governmental leases, we refer them to NCL. This relationship has benefited many of our Sourcewell/Tiger customers. NCL sample documents from the Tiger website are uploaded to the "Additional Documents" folder.	*
53	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Tiger ensures that the ordering process through the Sourcewell Contract is easy and pain-free for the end-user/ customer! Every order will be sent to Tiger Corporation by either the Tiger dealer, Tiger field manager or purchasing entity through email or fax. All purchase orders from the customer are made out to Tiger Corporation. Tiger verifies every Sourcewell order includes the membership number and all appropriate customer information. Next, the order is checked for accuracy & compatibility. Orders are transferred from the individual Sourcewell specific quote sheets and processed by our order fulfillment specialist at our factory. When the order is internally entered into our business system, it is transitioned into a work order in our company manufacturing software for building that specific product for the customer. We create an order code specific to the Sourcewell contract and then enter that information into Tiger's operating business system to assure all orders are tracked accordingly, and quarterly reports are processed in a timely manner for payment to Sourcewell. Once the order is placed in the system, our team is able to track from the first entry in our production system to completion and ship date. Tiger's accounting team, with direction from Tiger management, will track all Sourcewell orders and accrue the fees accordingly. The accounting office will submit the required quarterly reports. Accuracy in record keeping is a key strength of Tiger's accounting team as we manage 23 state contracts as well as supporting our dealers. Per Company policy the customer cannot be billed until the completed unit is delivered and accepted by the customer. Tiger's Authorized Dealer network is educated in the delivery of contract sales and aids in the order processing, delivery, and payment processing, working directly with the customer. In this manner, the customer receives their finished product on time, and Tiger maintains accurate records of the complete order fulfillment process. In summary, Tiger's goal is to ensure an easy ordering process and a positive customer experience for each Sourcewell member that does business with our company. Tiger will ensure accurate record-keeping for all Sourcewell orders and prompt payment of the contract fee.	*
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Tiger uses contractual Sourcewell specific quote sheets that make placing an order simple and effective for our customers and dealers. Just type in the quantity of the product you would like, and the form calculates the discount off of list price and tabulates the total at the bottom of the page. We include the warranty paperwork with every order and a copy of the invoice along with instructions to call Tiger Corporation if there are any questions on the purchase or product itself. A sample quote sheet has been uploaded to the "Marketing Plan Documents."	*
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Tiger currently does not accept P-cards, only because we have not had the need to do so. Tiger can certainly set up and receive P-cards, and would not charge any additional costs to Sourcewell members. Tiger can and routinely accepts wire transfers and ACH payments for ease of conducting business.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Tiger Corporation has a standard list price on all our products. All Sourcewell members will receive an 18% discount on each line item from Tiger List prices. Prices are FOB destination. Tiger Corporation manufactures and sells side and twin rotary mowers, side, twin, rear, and triple flail mowers, boom mowers with reaches from 18 to 30 feet, along with 15 different attachment heads for these boom mowers. Tiger will supply Sourcewell, the Tiger Authorized Dealer, and the Sourcewell member with a Sourcewell specific interactive quote sheet to order products and a copy of the Sourcewell-Tiger Price List. Sourcewell Price List has been uploaded to the "Pricing Documents" folder.	*
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Tiger will offer an 18% discount on all Tiger List prices. A Sourcewell specific interactive quote sheet is provided for ease of ordering. A copy of the complete Sourcewell-Tiger Quote Sheets has been uploaded to the "Additional Documents" folder.	*
58	Describe any quantity or volume discounts or rebate programs that you offer.	Tiger offers an additional 2% discount on any order with three (3) units or more on the same order.	*
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Tiger will offer cost plus 12% on material costs and any additional labor charges for any 'sourced', 'open market' or non-standard options, and any applicable freight costs.	*
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Tiger publishes all costs of acquiring a Tiger product in our list price, minus discount. Tiger does not surprise our customers with hidden costs. Once we are assured we have the right piece of equipment to match our customer's needs, all charges are upfront and shown on our quote sheet. All labor and delivery are included in the sales price. When dealer PDI is required, it is added to the specific quote sheet and the cost is listed on the price list.	*
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All Tiger products on the Sourcewell contract are listed freight, FOB Destination in the continental United States. Ocean freight charges will be added on sales to Alaska and Hawaii and external US territories. These additional freight costs will be listed on the Sourcewell specific quote sheet at the time of sale.	*
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Tiger would quote the products FOB Sioux Falls, SD, and would assist in arranging freight and documentation to Alaska, Hawaii, and any other offshore entity. For orders to Canada, Tiger will quote FOB Sioux Falls and arrange to add any additional surcharges, or customs charges to the bottom of our quote sheet for transparency to our customers.	*
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Tiger coordinates all shipments for its products from our facility in Sioux Falls, SD. Delivery can be made to the nearest dealer location or to the customer's location. If a Tiger Dealer receives the goods, they will prep the equipment for delivery and deliver it to the customer location. If goods are shipped to the customer location, the Tiger dealer will schedule a time and date for product walk-around on the operation and key points on safety and daily maintenance of the Tiger product. We are very flexible in our delivery abilities and can accommodate any customer requirements.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
64	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Sourcewell pricing is the most cost effective way to procure Tiger Products.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	Tiger understands the importance of accurate information on all paperwork and the value of an audit. At each phase of the order process our Tiger team will check and verify all information placed on the Sourcewell specific quote and call the customer if any questions arise. Again when the order moves to the floor to set up ship dates, Tiger will check the order for clarity, and again the customer will be called if there are any questions. All Tiger sales order team members know that compliance to pricing and exact ship to and bill to information is critical. After the sales order has gone through final review, the Tiger accounting department will monitor until ship/invoice is complete and reconcile all payments to the dealer and the Sourcewell fees. A report is written each month by our IT department to accumulate all contract sales, and Sourcewell contract sales would be added to this report. Submittal of fees are paid at the end of each fiscal quarter. Alamo Group has an internal audit team that assists Tiger with the audit procedure to assure that validity and adherence to contract specifics are administered correctly.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Tiger has a fully automated internal computer system and software designed to track and monitor all sales by contract on a monthly basis. Since our awarded contract in 2017, 25% of Tiger's total sales have come from the Sourcewell contract.
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Tiger Corporation would propose a 1% fee of total sales through this contract, that would be paid to Sourcewell for facilitating, managing, educating, and promoting this contract.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>Tiger Corporation offers a complete line of right-of-way roadside maintenance equipment. Starting with our top-of-the-line Boom Mowers (18 models), roadside shoulder mowers, rotary (5 models), and flail type mowers (6 models). Tiger also manufactures rear mowers (5 models), side shift rear mowers (8 models), along with multiple attachments to meet all our customer's needs.</p> <p>Tigers' boom mowers have reaches that extend from 13' to 30' in lengths. Our most popular boom cutter heads are the rotary and flail heads. These heads come in several sizes and offer multiple cutter knife combinations. We also have several different boom head attachments like the ditcher head, mulching head, sweeper head, 48" saw blade, Snow Panther snow blower head, excavator head, and JCB hydradig head, to name a few.</p> <p>Tiger manufactures a very efficient roadside shoulder mower for the industrial market. These rotary mowers are offered in either 60" or 72" cutting widths, with several blades to choose from, providing a flexible working solution for the customer. These models are also available in a twin configuration, which gives the customer a more expansive mowing capacity.</p> <p>One of Tigers' top-selling attachments is the Ditcher. With a 22" diameter cutting width, the Tiger rotary ditcher can move large amounts of dirt and mud from existing ditches or can cut a new path to create water flow and erosion control. This head is built with three heat-treated, self-sharpening, replaceable blades and wear plates.</p> <p>Tiger's flail mowers are offered as a single side, twin, rear, or triple flail configuration. Our flail mowers are some of the most durable and best-built mowers in the industry. We also offer a full line of 3 point flail mowers and pull-type triple flail mowers.</p> <p>Tiger offers rear rotary mowers that have cutting widths from 6' to 20'. An option to the rear rotary mower is the Offset Hitch which allows the tractor to remain on the road while the mower is entirely in the ditch. This provides operator safety and comfort to mow steep ditches without the tractor leaving the road.</p> <p>A Tiger exclusive innovation is the TruckKat. Tiger developed a boom mower that attaches directly to the modified truck bed of a Ford F550 or M2 Freightliner, turning the truck into a mobile boom-type cutting machine. This machine can travel at road speeds and then stop and change over to a right-of-way mowing machine cutting grass and brush up to 6" in diameter.</p> <p>Tiger has also designed a RailKut model, similar to the Truckat equipped with rail gear. The RailKut will provide an easy solution for efficient vegetation management of rail roads throughout North America.</p> <p>Tiger has developed an independent engine-driven boom mower that attaches to popular wheel loader models. This concept provides a solution to increase the customers' wheel loader utilization, making the loader a productive year-round piece of equipment. Flexibility and interchangeability are a solution for budget-conscious entities.</p> <p>The Tiger WET KUT system can be added to any rotary or flail cutting head, transforming a standard cutting head into a total vegetation maintenance machine. With a precision application of herbicide to any plant or shrub, while mowing, vegetation can be chemically controlled.</p> <p>One of Tiger's many tractor attachments is the Claw. This patented piece of equipment reclaims lost material from being washed away from the roadside edge. The disc gang action of the 22" boron steel blades provides a system to recover lost shoulder material from the ditch, pulling gravel and sand back up on the roadway to use again for clean driving surfaces.</p> <p>Interchangeability is a feature Tiger integrates into a number of our mowing systems. Product interchangeability enables the customer to purchase one tractor with multiple mowing systems. This solution solves the problem of numerous mowing challenges with one purchase, saving the customer money.</p> <p>Tiger is a business partner with New Holland, John Deere, and Case IH tractor Companies. These relationships allow us to offer turnkey tractor/mower products priced reasonably to the customer. Tiger maintains a stock of these tractors, allowing for fast deliveries.</p> <p>Tiger's product line is designed and engineered as a complete right-of-way maintenance solution.</p>
69	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>Industrial right-of-way mowing equipment, Tractor/MowerAttachments, Roadside Vegetation Management Equipment. Rotary and Flail side and rear mowers. Boom Mowers. Flex Wing Rotary Mowers.</p>

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
70	Flail, boom, rotary, wing, sickle, and slope mowers	<input checked="" type="radio"/> Yes <input type="radio"/> No	Tiger specializes in manufacturing side rotary and flail mowers along with booms mowers from 13 to 30' reach with multiple head combinations.	*
71	Seeders, tillers, mulchers, and sprayers	<input checked="" type="radio"/> Yes <input type="radio"/> No	Tiger offers a boom mulcher head and a wet cut system that allows our customers to apply herbicide.	*
72	Erosion control equipment	<input checked="" type="radio"/> Yes <input type="radio"/> No	Many of Tiger's products are considered erosion control: Ditchers, Wetcut system, and the Claw roadside reclaimers. Our Ditchers allow water to flow freely in drainage ditches to reduce water backing up and causing floods or erosion outside of the ditch banks. The Claw is a one-way disk that helps reclaim gravel that is washed away by spring rain or removal of shoulder material caused by a snow plow. The Wetcut is a herbicide bar that allows for chemical management of noxious weeds rather than using tillage to control weeds.	*
73	Ditch maintenance equipment	<input checked="" type="radio"/> Yes <input type="radio"/> No	Tiger offers a boom ditcher head along with a complete ditcher system for any tractor.	
74	Signage, signals, and message boards	<input type="radio"/> Yes <input checked="" type="radio"/> No	N/A	*
75	Radar equipment, traffic cameras or traffic sensors	<input type="radio"/> Yes <input checked="" type="radio"/> No	N/A	*
76	Other road right-of-way maintenance equipment	<input checked="" type="radio"/> Yes <input type="radio"/> No	Tiger offers a Truckat boom mowing system, Wheel Loader boom mower and multiple other rear three point tractor boom or flail mowers. We have had excellent success with the Truckat in the market place as it is an F550 chassis with our 22 ft. Bengal or 24 ft. Bengal boom mower installed on the chassis. Our Wheel Loader boom mowing system allows our customers to better utilize their capital investment of a payloader when not loaded gravel or salt trucks in the off season.	*
