Just some words of commendation, respect & appreciation for your Council's commitments to protect immigrant safety & security!! I applaud your stance and am so grateful for any and all protections extended to the very hard working, innocent immigrants who bring so much to ALL our communities !!! I am so proud that they have found (hopefully, permanently) safe havens so far in your/our communities and I support your stance 1000%! Let us all be kind, alert, appreciative & pro-active with regard to our neighbors and friends and stand ready to protect their safety and their livelihoods!

Thank you very much!

Most sincerely,
