In answering, Interim Assistant Community Development Director explained that the Caltrans projects related to auto-oriented uses, arterials and commercial thoroughfares, and other uses have been taken into consideration.

Commissioner Rojas asked if there is another Municipal Code section that includes an existing minimum range of setback around residential areas. In answering, Interim Assistant Community Development Director Orbach explained that there are setback requirements for development of structures on property. The difference is the current setback holds restrictions on drive-through lanes, menu boards, and pick-up windows.
