Conference/Seminar:	<u>2025 Policy Committee</u>
Location:	<u>Burbank, CA</u>
Dates of Travel:	<u>03/27/25- 03/28/2025</u>

Please provide a brief report on the conference, seminar, or meeting you attended.

I represented the City of Watsonville at the League of California Cities' Governance, Transparency, and Labor Relations Policy Committee meeting in Burbank. The committee held meaningful discussions on key statewide issues, including proposed legislation like SB 707, which could significantly impact the Brown Act and public transparency requirements. We also explored how generative AI can support local governments in delivering more efficient services and engaging communities in new ways. It was a valuable opportunity to advocate for Watsonville, contribute to statewide policy conversations, and collaborate with leaders from across California who are focused on innovation and good governance.
